POMP & CIRCUMSTANCE COMING FOR MORE THAN 3,200 GRADS

Thousands of almost-alumni and faculty members will don mortar boards and robes Sunday for the 11th annual IUPUI commencement ceremony set for 3 p.m. at the Indiana Convention-Exposition Center. If past years are any example, the event will draw an SRO crowd of proud relatives and well-wishers.

This commencement, with 3,257 candidates for graduation, will push past the 30,000-mark the number of persons who have graduated from the Indianapolis campus since the first commencement in 1970.

The more than 3,200 students, who have been enrolled in the 170 degree programs in 15 schools and divisions at IUPUI, will receive I.U. or Purdue degrees, depending on their area of study.

I.U. President John W. Ryan will confer the I.U. degrees and Arthur G. Hansen, Purdue president, will confer the Purdue degrees. Governor Otis R. Bowen, plus other dignitaries from both universities, will attend the ceremonies.

Sir Hans Adolf Krebs, who won the Nobel Prize for Medicine and Physiology and the prestigious Albert Lasker Award in 1953, will be awarded an honorary doctor of science degree from I.U. Dr. Krebs, who discovered the urea cycle (the final common path of the degradation of carbohydrates and certain other compounds and called the Krebs Cycle), remains in the forefront of medical research with investigation, writing and lecturing. He was knighted in 1958 and subsequently received the Royal and the Copley Medals of the Royal Society, of which he is a fellow. Currently he is the director of the Medical Research Laboratory of the Nuffield Department of Clinical Medicine, Radcliffe Infirmary, Oxford.

Dr. Krebs has visited I.U. 12 times as a participant in the annual Symposia on Regulation of Enzyme Activity and Synthesis at the I.U. School of Medicine and has been involved in a long collaboration with Dr. George Weber of the Laboratory of Experimental Oncology at the I.U. Medical Center.

IUPUI faculty members are asked to notify the Alumni Office (Ext. 8828) if they plan to participate in commencement exercises. Faculty members should enter the west side of the Convention Center no later than 2 p.m. Sunday. They will march promptly at 2:45 p.m. in the procession behind the graduates of their schools.

Faculty should enter the west entrance marked "A" or "C". Those using entrance "A" include allied health, graduate school, liberal arts, medicine, nursing and social work. Those to use entrance "C" are business, continuing studies, dentistry, education, engineering and technology, Herron, law, physical education, science and SPEA.

WHO, WHAT, WHEN, WHERE & SOMETIMES WHY

Displays -- Pharmacy displays this week in University Hospital will be Hoechst-Roussel Pharmaceuticals, Inc. on Monday, Squibb Pharmaceutical Co. on Wednesday and Saunders (book publishers) on Friday. Hours are 8:30 a.m. to 3:30 p.m.

Biochemical -- "Alterations in Energy Metabolism of Human Fibroblasts Aged in Culture," Biochemistry Seminar by Dr. Walter X. Balcavage from the Terre Haute Center for Medical Education; Medical Science Building, Room 205, 2 p.m. Monday.

Hoosier Scenes -- An exhibition of 17 Indiana landscapes from the permanent collection of the Indianapolis Museum of Art by artists who lived and worked in Indiana will open Tuesday at the museum's Downtown Gallery on the second floor of the Monument Circle AFNB. The exhibition remains through July 15.

Ultrasonic -- "Tissue Characterization in Myocardium," Ultrasound Research Division Seminar by Dr. Thomas D. Franklin Jr. from ICFAR; University Hospital Room N436, Tuesday at 3 p.m.

Oncological -- Dr. Albert Sattin, associate professor of psychiatry, will present this week's grand rounds in oncology Wednesday at 11 a.m. in Room R104 of the Radiation Therapy Building. The tumor conference is open to all residents and medical, dental and nursing students.

Presenters -- The annual graduate student research paper presentations, sponsored by Sigma Xi, will be held Wednesday at 2 p.m. in the Medical Science Building, Room B26. All interested faculty, staff and students are invited.

Musical -- Cole Porter's "Anything Goes" will be on stage at the Indianapolis Civic Theater May 8-18, Thursday through Saturday performances at 8:30 p.m. and Sunday matinees at 2 p.m. For information, call 923-4597.

Seminar Special -- "Direct Control by Insulin of Protein Phosphorylation-Dephosphorylation," Special Seminar by the Department of Biochemistry and the Diabetes Research Training Center; presented by Dr. Joseph Larner, professor and chairman of pharmacology at the University of Virginia School of Medicine; Medical Science Building, Room 326, Friday at noon.

The Older Woman -- An all-day program Saturday sponsored by the IUPUI Women's Studies Program will focus on "Women and Aging: Double Jeopardy or Double Fulfillment." The sessions will be held at the St. Andrew United Presbyterian Church, 3535 Kessler Boulevard, North Drive. Keynoter will be Ruth Harriet Jacobs, now a professor at Boston University who began her teaching career at the age of 45. She will speak at the 8 a.m. opening session. The program is free. For information, call Ext. 4457.

Onward -- IUPUI commencement will be held Sunday at 3 p.m. at the Indiana Convention-Exposition Center.

Islam -- John Edmond Woods, associate professor of Middle Eastern history at the University of Chicago, will give a special lecture on "Islam: Arabs and Moslems" at the Children's Museum Sunday at 7 p.m. Admission is free. The program is sponsored by the Jewish Community Relations Council and the IUPUI Office of International Programs and Services.

Coming Up -- "Dopamine Receptors in Cultured Anterior Pituitary Cells," Physiology Seminar by Dr. Mark Heiman, research associate; Medical Science Building, Room 205, 4 p.m. next Monday (May 12).
The city took on a more cosmopolitan air last week when a dozen social workers from 11 foreign countries arrived at Indianapolis International Airport. They will live, work and study in the community for four months as part of an exchange program sponsored for the second year by the School of Social Work and the Council of International Programs (CIP). The 12 social workers are part of a group of 209 social workers from 74 countries who will be attending similar programs at 13 other sites in this country.

According to David F. Metzger, assistant professor and director of the program, all the workers specialize in health-related areas. "They will be working in hospitals and health care settings in Indianapolis that most closely match the areas they work in at home," he said. "It is particularly exciting, both for the foreign social worker and his American counterpart, to approach a common practice problem from completely different backgrounds and cultures.

"They range in age from 24 to 40," continued Metzger, "and although they have had varying degrees of experience, they are all involved in direct practice." Besides such professional enrichment, the visitors will meet on the campus every Friday for formal educational material and informal exchange of methods, procedures and philosophies of social work between their countries and the United States.

An important part of the program is cross-cultural social exchange. To provide the visitors with firsthand experience of America and American family life, each of them will live with three different host families while they are here.

The 12 visitors include Chalermsee Intrachooto from Bangkok, Thailand; Eva Larsson from Stockholm, Sweden; Yuneah Shisoka from Nairobi, Kenya; Sandra Cleavely from London, England; Sylvie Gavriel from Jerusalem, Israel; Jorge Gorritti from Montevideo, Uruguay, and Tomasz Sekowski from Lublin, Poland.

Also, Hilde Noordtijj from Leiden, the Netherlands; Karin Fuhr from Worms, West Germany; Richard Sickinger from Mainz, West Germany; Adelaide Magwaza from Durban, South Africa, and Else Thorwing from Denmark.

The social workers will leave Indianapolis August 16 to spend four days in Washington, D.C., where they will meet with embassy representatives and government officials before returning to their homelands.

---

SIGMA XI BANQUET SET

Dr. Rolla Harger, professor emeritus of biochemistry and toxicology and "father" of the Drunkometer, will be the featured speaker at the annual spring banquet of the Society of the Sigma Xi.

The event is scheduled for May 12 in the Union Building, with a 6:15 p.m. business meeting, a 6:30 p.m. reception in the Roof Lounge, and a 7:30 p.m. dinner in the Hoosier Room.

A faculty member here for 38 years, Dr. Harger directed his research efforts toward the effects, detection and estimation of alcohol, poisons, and anesthetic drugs on the body. His analytical methods also include the Harger Micro-Method for alcohol in body tissues and fluids.

For more information, call Dr. Gordon Fricke, Ext. 426 at the 38th Street Campus.
Dated Up? -- Do you have firm calendar commitments for events falling from
August/1980 through August/1981? Then send them into the Information/Publications
Office so they can be published in the IUPUI calendar. The entry deadline for getting
those events to the office is May 15. The calendar is made available to all students
at registration time and sent to anyone who requests it. For information, call Ext. 2101.

Travel -- Information on the Fulbright Awards Abroad for 1981-82, along with details
for requesting an application packet, is available in the Office of Learning
Resources, Administration Building, Room 124 (Ext. 7442).

Summertime -- Effective Wednesday, summer hours for the School of Medicine Library
will be 8 a.m. to 10 p.m. Monday through Thursday, 8 a.m. to 5 p.m. Friday and
Saturday, and noon to 6 p.m. on Sundays.

Cosmetic -- Male and female volunteers are needed for a cosmetic testing program.
Payment will vary according to the type of test and number of laboratory visits
required. Male subjects are especially needed. Apply in person at the Elizabeth Arden
Dermatology Laboratory, Regnastrief Building, sixth floor, between 7 a.m. and 2 p.m.
Monday through Friday.

More Volunteers -- Female volunteers (over 40) are needed for esophageal
studies; will pay $50. For information, call 630-6932.

Attn. Voters -- The League of Women Voters of Indiana has a "Short Guide to Voting
in Indiana, 1980," which explains registration and voting rules. Bulk copies are
available for purchase from the league office at 539 Illinois Building, 17 West
Market Street, Indianapolis.

Your Serve -- Don't forget that the Faculty Tennis Tournament begins May 12 at
the Indianapolis Sports Center. It's open to all male or female part-time
or full-time faculty. Entry deadline is Wednesday. For information, call Dr. William
DeMyer, Ext. 8951.

"LIGHT FANTASTIC" AT HERRON

James Turrell, well-known West Coast artist recognized for his work as
a "perceptual revisionist" and known for his light installations, will
explain his work at a free public lecture at 2 p.m. Tuesday at the Gallery
of the Herron School of Art.

Turrell will supervise a workshop at Herron May 12-16 to be attended by critics,
artists, and curators from throughout the Midwest. The light installation,
"Avaar," will be constructed during the workshop and will open with a reception
at 7 p.m. May 16. It will be on display at the Gallery until July 3.

A former Guggenheim fellow, Turrell has exhibited extensively throughout Europe
and the West Coast. In his lecture he will also describe the volcano installation
at Boden Crater, Arizona, which he has been working on since 1972. In the Gallery
will be 11 color photographs and a 5-foot model of the extinct volcano installation.
