

IUPUI 2025 Strategic Initiatives: Advances in Health and Life Sciences

DRAFT

The following table lists task force recommendations related to efforts promote advances in health and life sciences. Recommendations span a number of the IUPUI 2025 Strategic Initiatives. They also support implementation of IU’s Principles of Excellence. [More information is forthcoming from stakeholder conversations, such as Biocrossroads, the Center for Interprofessional Health Education and Practice, among others.]

Primary Strategic Initiative	Strategic Recommendations	Emerging Performance Indicators	Related Strategic Initiatives	IU Principle of Excellence
Leverage our Strengths in Health and Life Sciences	Create and scale the Center for Interprofessional Health Education and Practice with a goal of achieving sustainability through internal and external acquisition of funds.		Accelerate Innovation and Discovery	Excellence in the Health Sciences and Health Care An Excellent Education: The best academic programs Innovative teaching
Leverage our Strengths in Health and Life Sciences	Facilitate the engagement of students and faculty from the various health and life sciences schools to collaborate in the classroom and clinical settings to deliver higher quality, comprehensive patient care.		Promote Under graduate Student Learning and Success Increase Capacity for Graduate Education Deepen our Commitment to Community Engagement	Excellence in the Health Sciences and Health Care An Excellent Education: The best academic programs Innovative teaching
Leverage our Strengths in Health and Life Sciences	Implement, integrate, and evaluate interprofessional health education programs and exemplary practices sites and translate outcomes into collaborative practice models with a goal of improving patient outcomes.		Promote Under graduate Student Learning and Success Increase Capacity for Graduate Education Accelerate Innovation and Discovery	Excellence in the Health Sciences and Health Care An Excellent Education: The best academic programs Innovative teaching
