1. Persons **with** Jagtags (students, faculty and staff) may enter the building through doors governed by electronic card readers at any time before library closing. 6. Any incident of theft, violence or disruption should be immediately reported to the ESG security person, when present, or to the campus police. Library patrons should be aware that we have installed emergency phones on the second and third floors of the library. These connect directly to the campus police.
7. These rules and procedures may be modified for law school special events. Faculty, staff, and students planning special events for evening hours must contact the Building Administrator, **Susan Bushue-Russell**, if persons WITHOUT Jagtags are expected to attend. The person planning a special event will be expected to provide ESG Security with necessary instructions for accommodating the event where this is deemed necessary by the Building Administrator.
8. During certain public events in and around Military Park, access to Inlow Hall may be further limited.

These stated measures will be in effect during periods of the year in which classes are in session or in which final examinations are being administered. When classes are not in session and finals are not being administered, the building will be closed to the public during evening hours, and access to the building during evening library hours will be by Jagtag ONLY. It is important that faculty, staff, and students ensure that they have their Jagtags in their possession at all times at which they seek entry to the building. As student access to the building is tied to library hours under these stated rules, students should also ensure that they are aware of these hours. Library hours are posted on the law school's website.

The Law School's Center for Intellectual Property Law and Innovation has moved into its new facilities just a block from the law school at **350 Canal Walk, Suite B**. *Professor John Schaibley*, Executive Director of the IP Center, anticipates that the new space will be a great resource for the law school's IP students and the IP community. The IP Center's broader goals and objectives include advancing the law of intellectual property, advocating and stimulating reform through scholarship and programs, and providing *meaningful*, non-redundant assistance and support to the numerous constituencies in various areas of intellectual property law.

One early objective of the IP Center is to enhance the already strong patent law program by taking steps to increase the number of students with science and engineering degrees who apply to...

Appellate Clinic Goes 3 for 3. During the spring semester, three Appellate Clinic students obtained reversal in their three litigated appeals. Certified intern ***Laura "Katie" Boren*** obtained a new trial for her client because the trial court refused to grant a continuance to allow the defendant's late-disclosed witness to testify. Certified intern ***Steve Simcox*** had his clients conviction reversed by the Court of Appeals after his oral argument, which was heard by Judges Najam, May, and Brown at Oakland City University, arguing that the state failed to prove his client had operated a vehicle while intoxicated. Certified intern ***Jordan Stover*** was able to secure a reversal for his client since the state failed to prove reckless possession of paraphernalia.

Professor Shawn Boyne presented her paper, "The Many Faces of Objectivity: A Look at German Rape Cases." at the Washington & Lee Law School's workshop titled, "Prosecutorial Power: A Transnational Symposium" which took place in April. The workshop brought together experts from both sides of the Atlantic who study the role of the prosecutor from a comparative and international perspective. They addressed common themes such as prosecutorial power, prosecutorial independence, and the role of international and transnational prosecutors. (Professor Boyne's paper is the culmination of research conducted while she was in residence at the Max Planck Institute for Foreign and Criminal Law.)

Bike Theft Prevention Tips

The increasing popularity of biking as a sport and as a means of transportation has made bicycles an easy target for thieves. Theft prevention tips include:

1. Lock your bike to a bike rack **ONLY** and avoid locking items that can be easily cut, broken, or removed. (Bike racks are located in the law school underground garage for extra security.)
2. Use a steel U-shaped lock or even two locks. Lightweight cable or chain locks no longer provide adequate security in most areas.
3. Locking your bike on rails, trees, signs, etc., can be a hazard to campus safety, campus property, and your personal property. Bikes found to be a hazard will be removed by campus officials.
4. Bikes not locked to anything may be removed by thieves. Buy a good lock and use it. Cable bike locks that secure both frame and front and rear wheels to a bike rack are best.

NOTE: For personal safety, wear a helmet every time you ride.
