

TRANSFERABILITY AGREEMENT
between
INDIANA UNIVERSITY-PURDUE UNIVERSITY INDIANAPOLIS
and
IVY TECH STATE COLLEGE- INDIANAPOLIS
FOR THE TRANSFER OF THE
ASSOCIATE OF SCIENCE
Community Emergency Preparedness and Management
into the
BACHELOR of Organizational Leadership and Supervision

The (proposed) Associate of Science Community Emergency Preparedness and Management degree is included in an existing Articulation Agreement that applies to graduates of all Ivy Tech State College associate degree programs. The comprehensive Bachelor of Organizational Leadership and Supervision articulation agreement specifies that students who have earned associate degrees from any statewide Ivy Tech campus may transfer up to 30 credits of technical courses in addition to other general education credits into the Bachelor of Organizational Leadership and Supervision degree program at Indiana University-Purdue University Indianapolis.

To ensure the smooth transition from the (proposed) associate degree to this baccalaureate program at IUPUI, the faculty of Ivy Tech State College and the IUPUI have agreed that students who complete the curriculum for the A.S. Community Emergency Preparedness and Management will be admitted with junior standing into the OLS program.

In order to benefit from the articulation agreement, only courses with a grade of C or above will be credited toward the baccalaureate degree; and Ivy Tech students must complete their A.S. degree with a sufficient grade-point average to be accepted into the IUPUI program

This agreement is effective at the time of approval of the Associate of Science Community Emergency Preparedness and Management degree. It is expected that both institutions will keep the other party aware of all curriculum changes as they occur.

While both parties to the agreement understand its purpose is to maximize transfer opportunities for students, they also recognize that limits may be placed on courses accepted under the provisions of this agreement should the student subsequently decide to change to another program not covered by the agreement.
