

CENTER ON PHILANTHROPY STAFF GROWS

The IU Center on Philanthropy on campus is expanding and has hired two women to fill two new positions.

Lilya Wagner of Lincoln, Neb., is the new associate director of the Fund Raising School, and Lois Sherman of Indianapolis is the new managing editor for the Center. Wagner was vice president for institutional advancement at Union College in Nebraska, where she was in charge of fund raising, college relations, alumni activities, college publications and communications and media productions, and had also served as an associate professor. In her new role at IU, she will assess training programs, develop curriculum and serve as Midwest regional director for the Fund Raising School. Also, she will be a member of the core faculty for the school, where she will recruit and assign faculty for the program.

WAGNER

SHERMAN

Sherman, before joining the Center, was a developmental editor for the Que Corporation of Indianapolis where she guided manuscript development, planned publishing strategies and monitored the work of copy and production editors. Before that she was co-owner of a writing and editing business in Santa Fe, N.M. At the Center, her department will produce a new quarterly, Philanthropic Studies Index, and will produce and market two other publications, Research in Progress, an annual, and Essays on Philanthropy, an occasional paper series.--S. AN APPLE A MONTH CAN HELP FACULTY FIND OUT ABOUT COMPUTERS IN THE CLASSROOM

A satellite teleconference series developed specifically for higher education is being offered free to faculty and administrators who want to know more about computers in the classroom. Learning Technologies is offering the series, "Apple Education on TV." The first conference, "Macintosh in the Classroom" is Jan. 24, 4-5 p.m., in the Education/Social Work building, room 2127. It will focus on the impact of computers on teaching and learning in higher education classrooms. The other conferences are "Macintosh Solutions for Administrators" on Feb. 21; "Math and Data Analysis" on Mar. 21, and "Multimedia 201: Beyond the Basics" on Apr. 25. All are at the same time and location as above. For more, call Joetta Smith Burrous, 4-4532.

SHARE YOUR THOUGHTS ON THE CRISIS IN THE PERSIAN GULF TWICE WEEKLY

The Political Science Dept. and the Student Political Science Association are hosting a conversation twice weekly about the crisis in the Persian Gulf. Members of the university community are invited to gather and share thoughts about the situation. There is no regular formal agenda. There will be a conversation leader and "usually" prepared resource people with varying perspectives. Brown bag lunches are expected and you may come and go as your schedule demands.

Conversations are: Mondays-- 11:45 a.m.-12:30 p.m., CA 438
Thursdays--12:30 p.m.-1:15 p.m., NU 410 (access through NU 407)

ABUSED CHILDREN: HESS SAYS SPEND MONEY NOW OR BUILD PRISONS LATER

In Indiana last year more than 50,000 children were reported abused or neglected, and the public welfare system that is supposed to help them is, in some cases, causing even more harm. Case overload and lack of funding are two of the many causes. This and much more was discovered in the recent research of Peg Hess, associate professor in the School of Social Work. The study shows that, because workloads are too high and money is too short, caseworkers and others whose job it is to protect children from abuse and neglect themselves are inadvertently returning children to harmful situations. With funding through a three-year grant from the U.S. Dept. of Health and Human Services, the School of Social Work and the Indiana State Dept. of Public Welfare, District VII, have conducted extensive reviews of 50 cases involving neglect and/or abuse--physical and/or sexual. Increasing the numbers of caseworkers, supervisors and support staff handling such cases in the welfare system are among the recommendations that Hess and other investigators made. Other recommendations include less turnover, reasonable salaries, more qualified caseworkers and increased funding to pay for the proposed changes. The numbers of reported cases of abused/neglected children have grown statewide from 2,000 in 1978 to 50,098 in 1990, while no significant increases in staff have been funded. Hess warns that untreated abused children are ending up in psychiatric hospitals and eventually prison. "There is no question that communities must make choices about priorities. Either we spend money now to help our youth or we spend even more money to build prisons for them later," she said. --M. Hopper

NEW SHOP CLERK OFFICE TO HANDLE TROUBLE CALLS Campus Facility Services (formerly known as Physical Plant) has opened a new shop clerk office which, according to Royce Deckard, "will be happy to handle all of your trouble calls regarding electrical, plumbing, refrigeration and sheet metal." The Shop Clerk office is located in the Campus Facility Building, 1220 N. Drive. Telephone 4-7609. The Clerk Shop and number is not in your telephone directory.

NEW VISITOR CENTER NEEDS YOUR LIAISON AND LITERATURE

If planning and preparation go well, the first IUPUI Visitor Information Center will open in the spring and will become a central campus information and referral point for people new to campus. Schools, centers, departments and divisions are being asked to supply the new center with publications and literature, such as bulletins and program brochures. Also, Noel Duerden, director of internal communications, which is developing the center, is asking for schools to select a liaison who can arrange tours or visits to particular areas. Campus tours will be arranged by the center and you are welcome to suggest the names of groups or organizations that might benefit from a tour. To submit information or to learn more of what is needed, call Duerden, 4-5488.

SCIENCE HAS 13 WHO'S WHOERS

The School of Science is pleased to announce that 13 of its students have been selected as national outstanding campus leaders and will be included in the 1991 edition of Who's Who Among Students in American Universities and Colleges. Selection is based on academics, community service, leadership and potential. Students are selected from more than 1,400 U.S. and foreign institutions of higher education.

REGISTERED DIETITIANS TO TEACH IN SHED

Everyone on campus is welcome to join the 1991 Sensible Healthy Eating Daily (SHED) program where you will learn why you want to lose weight, how long it takes, how to change to healthy eating habits, how your family can eat well, about eating out and about fad diets. Registered dietitians will help you SHED those extra pounds and teach you how to keep them off. The 10-week program begins Feb. 12 with sign-up and general lecture from noon-12:30 p.m. Weigh-ins will be from 11:30-noon and 12:30-1 p.m. The cost is \$20; \$10 for former SHED participants. For more call the sponsors--Max*Well at 4-0610, or the Dept. of Nutrition and Dietetics, 4-7870. (Please note that last week's Green Sheet had misinformation about this program. The editor regrets any problems it may have caused.)

FINALLY...

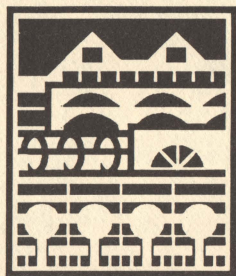

...you are invited to join the men and women who are burning calories, improving strength, flexibility and endurance and having fun in AQUANOON, the daily workout sessions in the instructional pool at the natatorium. Minimal swimming skills are required for sessions Monday-Thursday, but you must be able to swim across the pool for the Friday deep water exercise. Participants can come as often as they wish. The exercise to music is led by selected students in the School of Physical Education, sponsor. There is no charge for Aquanoon, but participants must have paid the spring semester recreational user fee. The class meets weekdays, 12:05-12:45 p.m., with sign-up at poolside daily. An informed consent/screening form is required. Lockers and showers are available. For details, call Betty Evenbeck, director of Aquanoon, 4-0619, or the Div. of Recreational Sports, School of Physical Education, 4-2824.
