CALIFORNIA'S BURKE TO KEYNOTE KING DINNER AT THE ROOF

Tickets are still available for the Black Student Union's 16th annual Martin Luther King Jr. Dinner on Jan. 19 in the newly renovated Indiana Roof ballroom. Lawyer and civic leader Yvonne Braithwaite Burke, who was California's first black woman to be elected to the U.S. House of Representatives, will be the dinner speaker. For tickets to the dinner, call Marie Brunsman in University Relations, 4-2223.

Also on Jan. 19, staff, faculty and students are also welcome to join the Indianapolis community for a campus celebration on the birthday anniversary celebration of the slain civil rights leader. Two daytime sessions are planned.

ISSUES IN POLITICS

The morning session from 11 a.m. to 12:30 p.m. is in the gym at the natatorium and features U.S. Congressman Walter E. Fauntroy (D-D.C.), whose career in politics, civil rights and religion got under way in the 1960s with a major appointment by Martin Luther King Jr. to the Southern Christian Leadership Conference. Also on the

morning agenda will be music, a slide presentation and brief comments from campus and city leaders.

The afternoon session entitled "Realities and Illusions in Higher Education: A Dilemma for Minority Students" is from 2:30-5 p.m. in the cafeteria at the Union Building. Featured speaker is Dr. J.P. Lisack, engineer, Purdue University faculty member and retired Air Force colonel. As director of the Office of Manpower Studies at Purdue, Lisack's research has led him to make some dire predictions for minorities in the work force and society. A panel discussion follows his remarks. Also on the afternoon agenda are others from the university, including faculty, administrators and students.

All are welcome to the daytime sessions. There is no charge and no registration required. Sponsor of the Martin Luther King Jr. commemorative celebration is the IUPUI Forum on Campus Interrelations (FOCI), Lincoln V. Lewis chairman.

One of These Days Is Here If you've been planning to get into good physical condition "one of these days," now is an excellent time, and MAX-WELL '87 is an excellent way. Campus units have planned programs that work for weight loss, muscle toning, general fitness and stopping smoking. Most of the programs are free or inexpensive. You're only one call away from spending your lunch hour being nice to yourself. Call 4-4537.

WORKS OF CAMPUS ARTIST ON EXHIBIT

"Emotion and Motion" is the name Pamela Wright has given a series of her photographs that will be on display through Jan. 15 in lobby gallery of the Jefferson National Life Insurance Company, One Virginia Ave. Pamela is an executive secretary who joined the IUPUI Office of Publications on campus two months ago. She is originally from Detroit and has lived in Indiana for 10 years. The abstractions that will be on display from 8 a.m. to 4:45 p.m. weekdays were taken last summer while she was studying at the Maine Photographic

Workshops. When forced to describe her own work, Pam says "It's spontaneity at its best." Single and a resident of the Nora area, the award-winning photographer also writes and is working on a book of photography for the deaf.

EXPERIENTIAL SETTING WILL FOCUS ON GROUPS AND ORGANIZATIONS

The Committee for the Study of Organizational Experience is offering a weekend conference Feb. 13-15 in Bloomington that will study the dynamic interaction between individuals, individuals and groups and between groups. Participants are from various disciplines. The committee's roots are in the Tavistock Institute of Human Relations. The conference is open to all adults with a serious interest in groups and organizations. For fees or more information, call Howard Hess, School of Social Work, 4-6712.

PARKING LOWERS GARAGE FEES

If you want to keep yourself and your vehicle out of the elements while on campus, you may want to consider buying a parking garage permit. Prices have been reduced from \$18 to \$10 a month. (Remember that the \$10 gets you a garage-only permit; if you want "surface" parking too, you must pay \$18 for the combination permit.) Parking Services assures us that we will find a space if we buy a garage permit. The new rate applies to permits for the South or East garages. As you have no doubt noticed, construction on campus is doing away with some parking areas, so a garage might be a better answer than using up a tank of gasoline looking for a spot. For those of you working evening shifts on campus, Parking Services is providing a shuttle from Riley to the South Garage between the hours of 10 p.m. and 2 a.m., weekdays. Get your new permits and more information from Parking Services, South Garage, Vermont Street.

VICE PRESIDENT BEPKO REAFFIRMS EO/AA COMMITMENT

Eighteen years ago, the university put in writing its commitment to equal opportunity policy, and again, Vice President Gerald L. Bepko reminds faculty and staff of the policy that prohibits discrimination against any individual for reasons of race, color, religion, national origin, sex, age, handicap or Vietnam Era veteran status. In his recent memorandum on the subject, he also charges us with the responsibility of carrying out the policy in a "positive" manner. All the rules and regulations on the subject, as set forth by IU and the federal government, are in the office of Affirmative Action, directed by Lincoln V. Lewis, and are available upon request.

PACK UP YOUR TROUBLES The people in our Non-Academic Counseling Services remind us that staff and faculty can get free counseling services for personal, couple and family problems or issues. Call 4-2548.

PROF. JEGEN'S TAX TIPS: NUMBER YOUR KIDS

You will want to take time out before next year to get social security numbers for all your dependents under five years old whom you claim on your tax forms. This, of course, is only one of the many new tidbits found in the Tax Reform Act of 1986, which Lawrence A. Jegen, III, professor of law, will be telling us about. That first item becomes law in 1988. Aside from all the new rules, the act requires that "six months after Oct. 22, 1986," the IRS is required to submit a report that describes the methods and resources which could be used in order to implement a system in which there would be no paper tax returns used by a significant segment of taxpayers--making us a "formless tax return society."

Other small items: Unemployment benefits will now be taxed, effective this year. Scholarship and fellowship grants are excludable from gross income only for a degree candidate and only for tuition, course fees, books, supplies and equipment--effective for grants made after last Aug. 6. **Much more to come....**
