## Office of Faculty Affairs

VOLUME 4 ISSUE 10

OCTOBER 2016

## From the Desk of the EAD/ADFA

Well, at the end of last month's letter, I clearly spoke too soon! On Friday, September 2nd, we came in early to a precise replay of the previous burst pipe issue. The same part of the pipe and the same tracking route of the water, assisted by gravity. Dean Williams, Dr. Chris Guba, Adam Smith and I met in my office (the Dean's still drying out), to discuss strategy. Much kudos to Adam and his team, Dr. Guba for managing the clinic facilities, and Leah Colbert for so skillfully and quickly reassigning patient appointments. Frustrating challenges, but always addressed.

Meanwhile, work outside, preparing the ground for the new building facility, proceeds steadily. Lots of drilling, excavating, creating a gaping cavity—sounds familiar? And of course, what a memorable day for us all, on September 23rd, with the official Ground Breaking ceremony, led by President McRobbie. Such an experience unique for most of us, within a professional lifetime.

Our office continues to be busy with departments, chairs, and the campus, in the various stages of bringing new faculty onboard. While much effort goes into the hiring of full time faculty, it's easy to overlook the importance of our adjuncts, our part-time colleagues, who provide so much vital input, especially to our clinical programs. Recognizing this, we will be hosting a workshop for our adjunct colleagues, led by the Office of Academic and Clinical

Affairs, in essence a calibration session, on Saturday, November 5th. All faculty will be welcome, but we hope to encourage as many of our adjunct clinical colleagues as possible, and CE credits will be given for attendance.

From time to time I mention our Mentoring Academy Program, a Chair-focused project to benefit all faculty and thus the mission of the school. While progress has been slower than we might have wished for, and through no fault of anyone, we were pleased to participate in a campus event early in September. Dr. Mindi Thompson of the National Center for Faculty Development and Diversity provided some valuable overviews of mentoring strategy followed in the afternoon, by poster presentations from the 12 campus schools that have received funding and support for their programs. Dr. Paul Edwards, who has so ably driven our own work, crafted a fine summary of our progress to date, and our poster received considerable interest and requests to follow up. As a reminder, we are the only school that has chosen to focus primarily on the chairs. More to follow...

During the week of the Labor Day holiday, we hosted a small group of 4 Brazilian dental students from the dental school of FAESA, in Brazil (Faculdades Integradas Espirito Santenses). Dr. Oriana Capin put great effort into organizing a useful and rewarding program for the students, and enlisted the help and support of other faculty and our own students. The visit culminated in a most enjoyable and fun dinner, downtown,

together with the group visiting the McKinney School, who are now in their eighth year of this partnership. When I asked the 4 FAESA students for one memorable impression of the visit, one positive, one negative, the former was the respectful and collegial relationship they observed between faculty and students in the clinic. On the other side, they were politely critical of what they perceived to be rather slack discipline with respect to infection control in the clinics. Interesting!

I will close on the main event, again. Following the excitement of the Ground Breaking party on 23rd, the evening saw a record turnout for the annual Dean's Society Dinner. Dean Williams and John Hoffman acknowledged the enormous support from alumni and other friends of IUSD. In addition, Dr. Lloyd Hagedorn was honored with the Distinguished Alumni Award for all the incredible work he has done to further the cause of IUSD and in spearheading the fundraising campaign for the new facility. I was deeply moved and honored to be elected an "Honorary Alumnus" of the school. In my comments, with the room full of alumni and their guests, I referred to the almost 700 international alumni, from 64 countries, that our graduate programs have produced over 6 decades. As President McRobbie observed earlier, Indiana University is one of the premier global universities in the country. We are all playing our part.

## HONORARY ALUMNUS AWARD

Dr. Michael J. Kowolik, Executive Associate Dean, Associate Dean for Faculty Affairs and Global Engagement, is the recipient of the Honorary Alumnus Award from the IUSD Alumni Association. The award was bestowed upon Dr. Kowolik during the Dean's Society Dinner on September 23, 2016 in recognition of his many contributions to the School of Dentistry. Congratulations on receipt of this well-deserved recognition.

# Faculty Development Opportunities

There are many opportunities for professional development during the month of October. The following list of programs were selected from various resources on the IUPUI Campus including the Office of Academic Affairs (AA), the Center for Teaching and Learning (CTL), the Office for Women (OFW), the Indiana University School of Medicine, Office of Faculty and Professional Development (OFAPD), the Office of the Vice Chancellor for Research (OVCR) and the IUSD Office of Continuing Education. Campus programs are at no cost to faculty.

*ENHANCE  
YOUR  
TEACHING  
AND  
RESEARCH  
SKILLS.*

## Tuesday, October 4th

### Share Your Scholarship, Increase Your Impact (AA)

**Time and Location:** 11:30 am – 1:00 pm, University Library 2120

**Presenters:** Jere Odell, Heather Coates

[Register](#)

## Tuesday, October 4th

### Copyright, Fair Use, and the Teach Act: What Teaching Faculty Need to Know (OFAPD)

**Time and Location:** 4:15 – 5:00 pm, Online

**Presenter:** Jennifer Westerhaus Adams

[Register](#)

## Tuesday, October 4th

### Canvas: Building and Organizing Content with Modules (CTL)

**Time and Location:** 12:00 – 1:30 pm, Online

**Presenter:** Peter Ermey

[Register](#)

## Thursday, October 6th

### Teaching at IUPUI: Documenting Your Teaching (CTL)

**Time and Location:** 11:30 am - 12:30 pm, Online

**Presenters:** Douglas Jerolimov, Richard Turner

[Register](#)

## Monday, October 10th

### Ralph Phillips Symposium on Dental Biomaterials (IUSD) (Fee Charged)

**Time and Location:** 8:00 am - 4:30 pm, Hine Hall University Tower Auditorium

**Presenters:** Paulo Cesar, Will Palin, Jeremy Mao, Mutlu Ozcan, Lorenzo Breschi, Paulo Coelho

[Register](#)

## Tuesday, October 11th

### Estate Planning – Leaving a Meaningful Legacy (OFW)

**Time and Location:** 12:00 - 1:30 pm, Campus Center 268

**Presenter:** Joyce Foster

[Register](#)

## Tuesday, October 11th

### Excellence in Research Workshop (AA)

**Time and Location:** 9:00 – 11:00 am in Campus Center Room 409

**Presenters:** Gail Williamson, Simon Atkinson

[Register](#)

## Wednesday, October 12th

### Teaching@IUPUI: Drafting a Teaching Philosophy (CTL)

**Time and Location:** 11:30 am – 12:30 pm, Online

**Presenters:** James Gregory, Richard Turner

[Register](#)

## Thursday, October 13th

### IUPUI Research On-Boarding Orientation (OVCR)

**Time and Location:** 9:00 am – 1:00 pm, IUPUI Campus Center

[Register](#)

## Thursday, October 13th

### IUPUI Research Resource Fair (OVCR)

**Time and Location:** 12:00 – 3:00 pm, Campus Center 450

[Register](#)

# New IUSD Faculty

The search for an assistant research professor and Dental Bio-materials lab manager for the department of Biomedical and Applied Sciences concluded last month with the department preparing to welcome new faculty member Dr. Sabrina Feitosa. A familiar colleague to some, Dr. Feitosa in 2015 served in our Division of Dental Biomaterials as an international scholar under the mentorship of Dr. Marco Bottino. Currently transitioning from Brazil to Indiana, Dr. Feitosa will start with IUSD around November 15th. In her new role, her duties will include development of protocols, writing and submitting grants, oversight and participation in the completion of resident and graduate student research carried out within the Dental Biomaterials laboratory, purchase and maintenance of required laboratory equipment, and serving as the lab safety officer.

Periodontics and Allied Dental Programs welcomes Dr. Santiago Ocampo to its adjunct faculty team. Dr. Ocampo's first day will be on October 10th. His Clinical Science teaching assignments cover T740, T750, T840, and T850, all day on Mondays and Thursday afternoon. He also covers Clinical Science D800 on Thursday afternoons. Congratulations to both!

## Faculty Development Continued

### Thursday, October 13th

#### 2016 Curriculum Enhancement Grant Symposium (CTL)

**Time and Location:** 2:00 – 5:00 pm, University Library, Lilly Auditorium, UL 0130

**Presenter:** Jay Howard

[Register](#)

### Friday, October 14th

#### FACET Informational Session (Brown Bag)

**Time and Location:** 12:00 – 1:00 pm, University Library, Room 1125M

**Presenters:** Laura Romito and Lisa Contino

[Register](#)

### Wednesday, October 19th

#### Global Learning at the Course-Level (CTL)

**Time and Location:** 11:30 am – 2:00 pm, ES 2132

**Presenters:** James Gregory, Leslie Bozeman

[Register](#)

### Friday, October 21st

#### Semi-Annual 3D Bioprinting Core Symposium: A Half-Year of Successful Activity (OVCR)

**Time and Location:** 9:00 am – 1:00 pm, Walther Hall 303

[Register](#)

### Thursday, October 27th

#### Dossier Preparation Workshop (AA)

**Time and Location:** 9:00 – 11:00 am, Campus Center 409

**Presenters:** Margie Ferguson, Gail Williamson

[Register](#)

### Thursday, October 27th

#### Teaching@IUPUI: Collaborative Learning (CTL)

**Time and Location:** 11:30 am – 12:30 pm, Online

**Presenters:** Anusha S Rao, Douglas Jerolimov

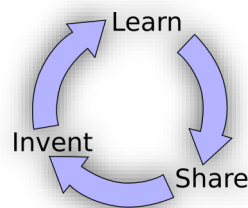

[Register](#)

### Friday, October 28th

#### Nine Golden Rules to Succeed in Research and Scholarship (OVCR)

**Time and Location:** 11:00 am – 1:00 pm, University Library 1126

[Register](#)

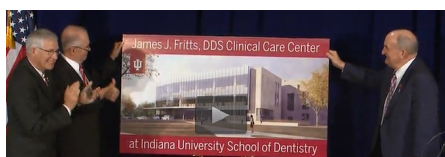

Teaching Conference, October 6&7

## DR. PLATT APPOINTED

Dr. Jeffrey Platt was selected last month to serve as Convener of ISO/TC106 Subcommittee 2 Workgroup 7 which is responsible for all international standards for impression materials. The [International Organization for Standardization](#) develops and publishes international standards including the performance, safety and specification requirements of dental products used in oral health care. Congratulations on your ISO committee appointment.

# IUSD Groundbreaking Event

With deep pride and honor, on Friday, September 23rd, the IU School of Dentistry held a momentous [groundbreaking ceremony](#) that celebrated the school's historical contributions to the state and to the world in teaching research, and service; contributions rooted in and furthered by an undiminished commitment to excellence.

That commitment to excellence has been a contributor to the high volume of student applications IUSD receives, said Indiana University President Michael McRobbie, presider of the ceremony. He also re-

marked on how the School of Dentistry is among the "major" contributors to Indiana University's social and economic impact on the state of Indiana, noting IUSD has maintained that influence despite an aging infrastructure that somehow has managed to serve more than 30,000 patients per year.

President McRobbie's comments then shifted toward officially ushering in a new era for the IU School of Dentistry, an era embarked upon with new state of the art clinics that will make IUSD "one of the most technologically current dental schools in the country." With a signature unveiling of the name of facility, the "James J. Fritts, DDS Clinical Care Center," the groundbreaking was proudly proclaimed and applause erupted throughout the audiences.

Other speakers during the event included

Dean John Williams, Associate Dean for Academic and Clinical Affairs Dr. Chris Guba, and D2 Class President, Josiah Smith.

As President McRobbie stated

in his closing remarks, "We can be ever more confident that the future holds great promise for the [IUSD] and the services it will provide to [all humanity.]"

Special thanks to all contributors to the planning and implementation of this grand groundbreaking event. And, a special thank you to IUSD alumnus, Dr. James Fritts, who made a significant financial contribution toward the new building addition, hence the naming of that addition in his honor.

# IUSD Sweeps UW Awards

The IUPUI Annual United Way Kick-off luncheon served by celebrity servers from campus offices and schools vied to raise tips and battled to win the best costume and best table decoration competitions to raise money for United Way of Central Indiana. Featured guests included Rafael Sanchez of WRTV, left, and Rafael Sanchez, the president of IPL, right with Chancellor, Nasser Paydar in the middle. The two Sanchezes are United Way of Central Indiana's community engagement co-chairs and put on

quite a humorous presentation, which included light-up gold shoes on the reporter.

The 2016 Celebrity Server with the most tips was our own Dean Williams, IU School of Dentistry, with total of \$1619 in tips! The gold trophy remains in the hands of Dean Williams and the School of Dentistry. In the Runner-Up category was the Interim Vice Chancellor, Tralicia Lewis, and Jason Spratt, Division of Student Affairs, with total tips of \$598. Two other servers came in a close 3<sup>rd</sup> and 4<sup>th</sup> place, Margie Ferguson (Academic Affairs) and Stephen Hundley (Planning and Institutional Improvement). The total of all the tips was \$3,783.90 with donations totaling \$580 for the auctioned items (hotel package with

Colts tickets). The total raised for United Way of Central Indiana was \$4,363.90 which exceeds last year's luncheon fundraising by \$1,258.59! What a great way to kick-off the IUPUI campaign.

The best costume was awarded to Student Affairs, Tralicia (as Hilary Clinton) and Jason (Donald Trump). The best decorated table was awarded to the School of Dentistry and Dean Williams' construction zone motif (or a crime scene investigation?!)

# IUSD Building Progress

As the month of September came to a close, contractors were completing the excavation of the crawl space for the new clinical building, fine-tuning and leveling the depth of the soil. To our disappointment, no interesting archaeological artifacts like dinosaur bones were discovered in the excavation site!

As of September 30th, steel support piers will begin to be installed for the foundation of the new facility. Unfortunately, this work

will be very noisy, and will likely cause vibration throughout the existing facility. You will also hear the alarm sounds from the construction vehicles as they are backing up as they complete this activity. According to Adam Smith, Director of Facility and Auxiliary Operations, this is pretty much standard fare for this type of construction, and will occur with some frequency as we move further into the construction phase of the building. Look for concrete to

arrive as early as the first week of October and steel in early December.

In January, Vermont Street will be closed for two weeks for utility work and tie-ins for the new building. Multiple campus service providers will work together to redirect traffic.

No updates were provided this month on the Michigan Street widening or Phase II of the current facility redesign, but stay tuned for lots more news as the clinical building and other construction projects progress.

## Dr. Pam Shaw Recognized

Three faculty, including Dr. Pam Shaw, credited for exceptional support for students with disabilities were honored by Chancellor Nasser Paydar and [Karen Dace](#), the vice chancellor for [Diversity, Equity and Inclusion](#), with the first [Advocate for Equity in Accessibility Awards](#) during IUPUI's annual Diversity Soiree last month in ceremonies at the One America building in downtown Indianapolis.

The awards were given for "going above and beyond every expectation in the support of students with disabilities at IUPUI," said Dace. The honorees included [Sheryl Allen](#), former dean of students for the School of Medicine, [Pamella Shaw](#), associate

School of Science.

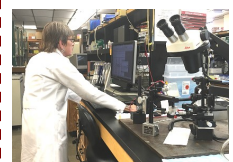

In addition to receiving plaques during the reception, a larger plaque celebrating the award will be mounted in a hallway in Joseph T. Taylor Hall. "The placement of the plaque is significant because it is the location of multiple diversity-related student services offices," Dace said. Taylor Hall is appropri-

ate for another reason, too. Dace added that the man for whom the building is named was a staunch advocate of such services and the father of a daughter with special needs.

The award will play an important role in campus efforts to be inclusive. "We want to ensure that our students with disabilities enjoy all of the benefits of campus life possible," she said, noting that everyone on campus can play a part. "Working closely with the professionals in Adaptive Educational Services, these advocates work behind the scenes to remove obstacles so that students with disabilities receive the appropriate accommodations in order to succeed,"

## OHRI ACQUIRES NEW EQUIPMENT

The Oral Health Research Institute recently acquired new state of the art equipment. One new acquisition is a digital transversal microradiography unit (TMRD). It utilizes a tungsten micro-focus x-ray source and is based on real-time imaging using a high-resolution photodetector and analysis with dedicated software. TMRD eliminates the use of glass plates or film, allowing for higher reproducibility and lower variability. It is currently being used as primary analytical tool in several industry-sponsored in situ and in vitro caries research studies. The other acquisition is a portable optical coherence tomography (OCT) system (IVS-300-XP OCT, Santec, Japan). It consists of a swept source, balanced detector, special digitizer board and computer all in one box with a separate small probe head. The software incorporates many user-friendly functions, including real time enface extraction for target identification and surface profiling with polygon data conversion, thickness measurement with submicron precision. This OCT system will support in vitro and clinical studies on dental erosion and caries.

# The Thrill of Victory

Cloudy skies gave way to bright sun as the Eighth Annual IUPUI Regatta unfolded Saturday, September 24th on the Indiana Central Canal at 10th and 11th Streets.

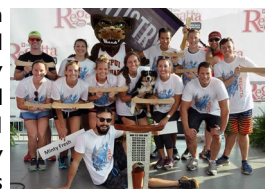

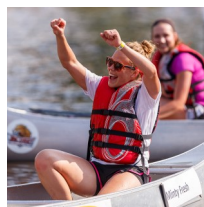

This year's Regatta provided the opportunity to reclaim the Regatta gold after a

stunning defeat last year by campus competitors. Ah, the sweet, wet, feeling of conquering on the water! IUSD you did it again, responding in a big way to the challenge to oar and cheer our men and women teams to the victory platform. Congratulations to champion Women's Team, "Minty Fresh" (Allison Williams, Audrey Welkin, Hailey Wilson, Becca Baer, Hunter Allen, Bridget Swope) and champion Men's Team "Teeth" (John Seely, Jake Balkos, Sean Kelly, Kendall Frazier, Brian Naylor)!

Making it to the victory platform in third place was IUSD's women's team "Golden

Crowns" (Logan Wheeler, Jillian Albee, Emma Meyer, Erin Seely, Katelyn Brauer) and IUSD's men's team "Fearless Festooners" (Jeff Valliere, Patrick Mangan, Uzi Kamal, Alan Prouty). Congratulations to these outstanding rowers as well! They are crews that know how to cruise.

Overall, the IU School of Dentistry had a tremendous, enthusiastic showing: 15 teams of rowers for over 120 participants and volunteers and an unnumbered amount of family members and fans. Relive IUPUI Regatta 2016 by checking out this link <https://youtu.be/YTaRXF3McYY>.

# Faculty Recruitment Update

Exciting updates about our assistant dean for Academic Affairs and assistant dean of Clinical Affairs as well as our assistant research professor vacancies have been

shared earlier in this month's newsletter. Both the assistant/associate research professor position and the associate professor position in the department of Cariology, Operative Dentistry and Dental Public Health are in post final candidate interview stages, with the latter position in pre-campus level offer letter stage and the former position in hire recommendation stage. Reference letters are coming in for the

tenure-track associate/full professor position in the area of Skeletal Repair, Skeletal Development, and Bone Cancer Biology in the Department of Biomedical and Applied Sciences. Once those have been received, an offer packet will be sent for campus-level approval. Dental Hygiene now has a clinical assistant professor position [posted](#). Its closing date is November 13th, with interviews starting in December.

## OSHA UPDATE

To adjust for inflation, effective August 1, 2016, the maximum fines for OSHA <https://www.osha.gov/> violations increased 78.2 percent for certain categories of violation. Examples include the following:

- ⇒ The maximum fine for serious and other-than-serious violations rose from \$7,000 to \$12,741.
- ⇒ The maximum fine for willful and repeat violations increased from \$70,000 to \$124,709.
- ⇒ The maximum fine for failure to abate was \$7,000 and is now \$12,741.

Going forward there will be annual or periodic increases depending upon inflation rates. States are required to adjust their own fines within six months if they do not follow federal OSHA guidelines. New fines by states have to be at least as effective as the ones the federal regulators have put into place. Let's stay safe!

# Assistant Deans Appointed

Last month, Dr. Christianne Guba, Associate Dean for Academic and Clinical Affairs, announced the appointment of Prof. Melinda Meadows as Assistant Dean for Academic

Affairs, and Dr. David Brown as Assistant Dean for Clinical Affairs, after an internal search for these new positions. These administrative positions were created as part of a restructuring plan for the office.

Since 1999, Melinda Meadows, Associate Clinical Professor, Department of Pediatric Dentistry, has served as both a clinical faculty member and more recently as the Director of Program and Institutional Assessment in the Office of Academic Affairs. She has extensive experience and expertise in curriculum matters, assessment and operations. She holds an AS in Dental Hygiene; a BA in

Health Sciences Education, and a MS in Health Sciences Education, all from Indiana University. In addition, she has received numerous Teaching, Research and Service Awards during her tenure at IUSD.

David Brown, Professor and Chair of the Department of Comprehensive Care and General Dentistry, has been an IUSD faculty member since 1986. Dr. Brown earned his BA and DDS degrees from The Ohio State University and his MS in Prosthodontics from the Mayo Graduate School of Medicine. Dr. Brown also served as the Chair of the Department of Restorative Dentistry for 11 years. He has extensive experience and expertise in clinical operations management. A Board Certified Prosthodontist, Dr. Brown currently serves as a NERB examiner and Consultant to the Commission on Dental Competency Assessments.

Dr. Guba in her new Associate Dean position will focus on strategic matters such as the evolution of the educational and clinical missions within the new clinical building, enhancement of screening and patient assignment, new sources of patient availability, and the IDP program, as well as assuring that policies and procedures are in place and functioning as required for IUSD's next CODA accreditation site visit in the fall of 2020.

The parallel positions of the assistant deans for academic and clinical affairs will focus on the operations of academic and clinical affairs, for more of the day-to-day functions and responsibilities.

Congratulations to both Assistant Dean Meadows and Assistant Dean Brown on their new appointments in the Office of Academic and Clinical Affairs. We wish them success as they embark on this new journey.

## Join Us in Brown County

The 2016 IUSD Teaching Conference is just around the corner on October 6<sup>th</sup> and 7<sup>th</sup> in the Brown County State Park in Nashville, IN. Registration was completed last month to allow for final planning and preparation for the conference and associated activities.

The main focus of this year's conference will be community-based education. This topic, selected by the faculty, is particularly relevant as we move toward the implementation of a Community Based

Education rotation in the D4 students' academic year. The speaker will be Dr. William Piskorowski, Assistant Dean for Community-Based Education, University of Michigan, Ann Arbor.

We will also have presentations from two of our faculty colleagues, Dr. Gabriel Chu and Dr. Vanchit John. Dr. Chu, Associate Dean for Research, will present his vision on the future direction of research at IUSD. Dr. Vanchit John, Chair of the Department of Periodontics and Allied Dental Programs, will deliver a presentation entitled, "Transition Planning. A Critical Mo-

ment in IUSD's Future."

This is a landmark year as we celebrate the 50<sup>th</sup> Anniversary of the IUSD Teaching Conference. For the last fifty years, the IUSD Teaching Conference has been a forum for IUSD faculty members to meet and discuss teaching/learning issues, learn new technologies, improve colleague relationships, and receive updates on future plans.

The Teaching Conference affords us a great opportunity to enjoy the fall weather and take in the great fall scenery at Brown County State Park..

## DR. YEPES LECTURES AT KING SAUD

Dr. Juan Yepes, Associate Professor, Department of Pediatric Dentistry, recently returned from an invited lectureship at King Saud Bin Abdulaziz University of Health Sciences in Riyadh, Saudi Arabia. Over the course of three days, September 19<sup>th</sup> –21<sup>st</sup>, he lectured on the topic, oral diagnosis for the pediatric patient. All of the faculty, residents and dental students were invited to attend the lectures. One of the highlights of the trip was a visit to their university library where Dr. Yepes discovered that the reference textbook for pediatric dentistry was the one and only McDonald and Avery's Dentistry for the Child and Adolescent.

## PLATER INSTITUTE ON THE FUTURE OF LEARNING: EDUCATING FOR A GLOBAL COMMUNITY

**Keynote Speaker:** Dr. Darla Deardorff, Executive Director, Association of International Education Administrators, *introduction by Dr. Gil Latz, Associate Vice Chancellor for International Affairs*

**Date:** Monday, October 31, 2016  
**Time:** 9:00 am—3:00 pm program  
**Location:** Campus Center 450  
**Sponsors:** Office of Academic Affairs and Office of International Affairs  
**Registration:** Required

## RALPH PHILLIPS SYMPOSIUM

**Speakers:** Drs. Paulo Cesar, Will Palin, Jeremy Mao, Mutlu Ozcan, Lorenzo Breschi, Paulo Coelho

**Date:** Monday, October 10, 2016  
**Time:** 8:00 am—4:30 pm  
**Location:** Hine Hall University Tower Auditorium  
**Tuition:** \$179 faculty and clinicians, \$79 students  
**Registration:** [Register](#)
