103rd REPORT

Even though the American Turners were found in 1848, this is the 103rd Annual report.

Two reasons for this are the change of the fiscal year, formerly April to March 31, to the calendar year, and the failure to publish one report during the Civil War Years.

The first report was 1849.

EDITOR

NOTICE

This report is sent to all societies, districts and national officers of the American Turners, without charge, for their official use. Please preserve this report carefully; it is prepared and published in the interest of the American Turners and as an aid and guide to its societies and officers. Additional copies may be ordered, while they last, from the national office at a cost of \$1.00 per copy postpaid. This price is below the actual cost of publication.

REPORT OF THE CHAIRMAN OF HEALTH AND PHYSICAL EDUCATION — 1953

As Chairman of the Health and Physical Education Committee, I would like to touch briefly upon the many and diverse problems which have confronted us. We have made every effort towards solving these problems, and I can truthfully say that we have accomplished a lot in the past two years. Most of our problems were of such nature, that it required many hours of deliberation, before an acceptable formula could be acted upon.

Our meetings have been very successful and were very well attended. We owe a lot of gratitude to the members of the committee, who have been so willing and have given their time and effort in helping to find a solution to our problems. The Athenaeum Turners and the Normal College, who have been our hosts for these meetings, deserve a lot of credit for their cooperation in making the preliminary arrangements for these meetings. We wish to thank both of these

organizations for their efforts in making our stay in Indianapolis, a very enjoyable one.

Exchange of views regarding problems confronting Turner Instructors, teaching methods, lesson plans and social activities for societies were discussed, and many new ideas were presented.

The lack of qualified teachers for Turner Societies was discussed. It appeared from the information at hand, that the main reason for such a shortage, was the low salaries offered to qualified men in this field. It was the consensus of opinion, that unless an effort was made to raise the standards for Turner Instructors with wages comparable to those paid in industry, it would only be a matter of a few years and the present supply of qualified men would be depleted. This represents a very serious situation for all of our societies. It was also brought forth at the meetings, that societies who are paying good salaries, are able to maintain good teachers, and have no problem in organizing and maintaining excellent classes.

In an effort to relieve the teacher shortage, a special two year course is being set up by the Normal College, for young men, who desire to teach in Turner Societies. Upon completion of this course, a certificate as Teacher of Physical Education will be granted by the American Turners.

The Leaders Course and Teachers Refresher Course have been placed in the hands of a sub-committee for investigation and planning. This committee has been instructed to gather data from previous courses and also present a workable plan for a course which will be beneficial to all of our societies.

A Rules Committee was appointed which will handle all disputes, make changes in our present rules for National Championships and National Festivals. The committee is composed of all specialists in their own field, namely, Gymnastics, Track and Field, Volleyball, Basketball, Swimming, and Scoring and Auditing. All changes in rules will be referred to the National Health and Physical Education Committee for final approval.

One of our greatest problems arises out of the fact that we find it very difficult to get bids for our National Championships. Rotating these events yearly by regions, did not prove to be practical. Other methods were used, and these too, did not bring the desired results. It has been my desire to rotate these championships by mandate, so that every society in our national organization would be the host for one of these affairs, rather than, allowing the same societies to conduct these affairs, year after year. I believe that with the help of the National Secretary, National Field Director, Chairman of the National Health and Physical Education Committee, and the Chairman of the Rules Committee, there could be no reason for any society to turn down this assignment. It would help those societies which need that little "shot in the arm" to revive the Turner spirit in their society and in the community in which they are situated.

Experiment with the Simmen Plan for scoring has been accomplished and many more new ideas will be placed before the next national

convention for final approval.

A committee has been assigned by the Council to organize a National Youth Program. This program would consist of gymnastics, track and field, tumbling for boys, acrobatics for girls, swimming, diving, life saving, camping, crafts, boating, and many other items which pertain to the health and well being of our Turner Youth.

Our greatest effort must be placed in the promotion of our forthcoming National Turner Festival. It requires a lot of planning and financial expenditure to conduct an affair of this type. The American Turners are willing to conduct this notable affair, and with the co-operation and good will of all the societies in our organization, there is no reason why we cannot achieve our aims. All societies should begin at once to organize their resources and make every effort to send a large delegation of participants as well as visitors to this great spectacle, the American Turners 39th National Festival.

With Turner Greetings,
GEORGE L. CHESTON

REPORT OF CHAIRMAN OF NATIONAL CULTURAL EDUCATION — 1953

On assuming the Chairmanship of the National Cultural Committee on January 1, 1953, it was evident that there were tremendous opportunities for improvement, but the cooperation of every member of American Turners was necessary to conduct a successful program. This I stated at the time in an article in Turner Topics. The interest and cooperation of the few who are interested in Cultural Activities is commendable and it is only thru their untiring efforts that the program is alive today. They have worked against overwhelming odds. One very sincere member of the National Committee reports that when the report on Cultural Activities is read, it is the signal for those present to leave the meeting for another drink. Such actions indicate an utter lack of interest in cultural activities and a certain contempt for those who are striving to promote the second of the four Principles of the American Turners.

The thinking of the members seems to be changing from the things that have sustained the Turner movement over the years to one of new individual pastimes and pleasures. Notwithstanding the resolution which passes on the floor of each National Convention that the word "societies" be used, in many of the societies' papers they are referred to as clubs. This alone has a strong impact on the minds of members, especially the new ones, and diverts their thinking away from the real purposes of the organization, namely "A Sound Mind in a Sound Body."

On assuming office it was apparent that the Cultural Rule Book needed revision. The changes made in the rules at the New York Convention in 1950 had not been incorporated. At the same time there was a great deal of dissatisfaction concerning the Rules for the Annual Competition. These were analyzed and the proposed changes were referred to the Rules Committee for their approval. A reprint was made of the Rules Applying to Cultural Education Competition Revised to

January 1, 1953. The changes were well received by those who were governed by these rules.

Although the Annual Competition program is disappointing, and in some instances discouraging, there seems to be a trend of improvement. Each year the total number of points which are awarded are increasing, although the number could well be doubled if all societies would make a monthly report of their activities.

As each judging committee completes its work, it makes a report of the earned points as well as recommendations for improvement in submitting the reports. These recommendations have been printed in Turner Topics and the reports are being received in better form; however, here is an opportunity for assisting the judging committees who contribute a great amount of their time to this work. These members who make up these committees cannot be praised too highly for their unstinting loyalty to the cause of Turnerism. If each one who submits a monthly report would only follow the suggestions of Turner John L. Riemer, which were sent to all interested parties, the work of these judging committees would be more pleasant and less onerous.

The following is an analysis of the Annual Competition by years showing the year points, without any breakdown by groups, districts or societies:

1950-1951	7828.0 points
1951-1952	12604.65 points
1952-1953	14598.65 points

These figures show a gradual improvement but is far from representative of the actual cultural activities in the respective societies, some of which completely ignore reporting them on the monthly report.

Another indication of an improvement trend is in the number of points which won the National Annual Cultural Competition for each year since the inception of the competition:

1948-1949	Cleveland S.T.V.	1867.7 points
1949-1950	Cleveland S.T.V.	1758.7 points
1950-1951	Kansas City	1998.0 points
1951-1952	Cleveland S.T.V.	1866.4 points
1952-1953	Detroit	2892.9 points

The exhibits in the 100th Anniversary Inivational Festival held by American Turners-Detroit, June 25 to 28, 1953, were awarded 419.53 points. During this Festival a meeting of the National Cultural Committee was held. Practically all of the members of the committee were present. This was the first meeting of the committee since 1949. It enabled the members to get better acquainted and to discuss their mutual problems. The discussions were sincere, intelligent and conscientious. It was obvious that each one has the interests of the Cultural Program at heart and is doing a marvelous job in face of the almost unsurmountable obstacles which are put in their way by unscrupulous sources.

Although changing times have brought about a great amount of competition against the original purposes of Turnerism, they remain worthwhile and necessary to the extent of surviving and progressing if the membership is encouraged to participate.

J. L. WILLIAMS, *Chairman*

INSTRUCTORS' FUND OF THE AMERICAN TURNERS

The Instructors' Fund of the American Turners was established for the purpose of aiding Instructors who have served the Turners faithfully and who are seriously in need of assistance.

The following are some of the provisions of the Trust Agreement and Rules governing this Fund: All contributions must be added to the principal of the Fund. The principal must be invested only in high grade, United States Government, State or Municipal Bonds. One-fourth of the income of this Fund must be added to the principal to insure the growth of the Fund. The balance of the income is available for distribution to worthy applicants. In order that an application for aid may be considered, the applicant must have rendered faithful service as an Instructor in a Turner Society of the American Turners. Application for aid may be submitted by the applicant or by the Executive Officers of a Turner Society, in which the applicant served. In making distributions of funds to needy applicants, it is obligatory upon the Trustees to take into consideration the acts of Instructors and/or their Societies in contributing to the Fund. All officers handling monies or resources of the Fund are adequately bonded. No Trustee can receive any salary or compensation from the Fund.

TREASURER'S REPORT

For Period Starting April 1, 1953 and Ending March 31, 1954

WILLIAM VOELKER,

Treasurer

REPORT OF BOWLING COMMITTEE

The 1953 American Turners' National Bowling Tournament was held at Fort Wayne, Indiana, under the direction of The American Turners of Fort Wayne. The Men's section held their events at Scott Recreation and the Ladies' section used the facilities of the Bowman Recreation.

In the Men's division, the entries totaled 215 Teams, 541 Doubles Teams and 1,076 Individual Teams. The Ladies had entries of 108 Teams, 239 Doubles Teams and 457 Singles. Those wishing to enter the All Events paid \$1.00 extra, all of which went into the prize fund for this event. 630 men and 275 ladies participated in the All Events.

The total prize money distributed, amounted to \$10,321.00. The men's prize list was \$7,096.00 and the ladies, \$3,225.00. This was the largest distribution of money in the history of the National Bowling Tournament.

At this time, I wish to extend my heartiest congratulations to the Fort Wayne Turners for their excellent handling of this Tournament.

The 1954 Tournament has been awarded to Johnstown, Pa., and the 1955 Tournament to Madison, Wisconsin. We are now open for bids for the 1956 Tournament.

WES THOMAS

FORTY YEAR MEMBERS OF THE AMERICAN TURNERS — 1953

Card No.	Name	Society	District	Date
93	Ernest Uhleman	Brooklyn Turners	New York	1-2-53

CHARLES L. COE & COMPANY

Certified Public Accountants

17007 Kercheval Ave. — Grosse Pointe 30, Michigan

National Executive Committee
American Turners
Detroit, Michigan

We have examined the statements of financial position of American Turners General Fund, Physical-Cultural Fund, and Endowment Trust Fund as of December 31, 1953, and the statements of income and expense for the year then ended, have reviewed the transactions, have examined or tested accounting records of the funds and other supporting evidence by methods and to the extent we deemed appropriate. Our examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures we considered necessary.

In our opinion, the accompanying statements of financial position and related statements of income and expense present fairly, the position of American Turners General Fund, Physical-Cultural Fund, and Endowment Trust Fund at December 31, 1953, and the results of their operations for the year, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Income of all funds is reported on the accrual basis except that pledges to the American Turners Endowment Trust Fund were not accrued as income because of their uncertainty.

CHARLES L. COE & COMPANY
