

IFC Research Affairs Committee
Goals 2010-11

- Clarify roles and responsibilities of Research administration at IUPUI
 - Pre/Post Award Processes (Grants and Contracts) since reorganization to “cradle to grave” approach – how is it working now?
 - Recommendation for process for approval of waivers of publication restrictions from John Talbott’s office
 - Review of IRB functions, processes, policies – particularly with social science, arts, and humanities.
 - Research Administration Advisory Committee – Ora Pescovitz initiated a system-wide committee but it has been dormant since she left the position. Should it be reinstated??
- Campus-wide research initiatives: The process for decision making re: campus-wide initiatives such as **limited submissions**, Signature Center reviews, etc is unclear and lacks transparency. This may limit our campus’ ability to be competitive for large grants. This issue was identified as **high priority** for RAC.
- IUPUI “Roadmap” from Chancellor Bantz. Where will research be “on the map” and what faculty input will there be.
